

Mechanical Engineer • Bury St Edmunds

Greene King have dedicated themselves to the art of brewing for the last 200 years and are the UK's number one producer of cask ales, with our unrivalled range of quality beers exported all over the world. We are now looking for a dedicated, enthusiastic Mechanical Engineer to help us stay ahead of the competition.

Working a three-shift pattern in our Brewing and Fermentation facilities, responsibilities include: carrying out Planned Maintenance (PPM) and a range of engineering tasks including fault finding, repairs, welding and general improvements.

Skills/Attributes:

- Experience of working in a time pressured maintenance or production environment;
- Qualified to City & Guilds, NVQ Level 3 or ONC standard or equivalent;
- Flexible;
- Motivated
- Committed and able to produce results through teamwork.

If you wish to apply, please send your CV with covering letter to Gavin Kilbourn, Engineering Manager, Greene King Brewing Company, Abbot House, Westgate Street, Bury St Edmunds, Suffolk IP33 1QT. Closing date for applications is 19th March 2010.
